PREFACE

*If we could first know where we are, and whither we are tending,
we could then better judge what to do and how to do it.*

-- Abraham Lincoln, 1858

Several changes will be found in this 1999-2000 edition of the **SMCM Factbook**. Specifically,

- The "Significant Events in the History of St. Mary's College of Maryland" table has been moved to the inside front cover,
 - A campus map has been added, and this appears on the inside back cover,
 - The mission statement for the College appears as Appendix A,
 - The "Enrollment Summary" table has been dropped because of its redundancy with other tables,
 - "Living Arrangements of Full-time Students" is a new table showing living arrangements (residence hall, townhouse, and off-campus) by class level and semester (this table replaces the "Enrollment Trends" table found in previous editions),
 - Admissions statistics for freshmen and transfer students are now presented on separate pages, each with its own graph,
 - The information presented in the old "Student Retention" graph is now presented in two graphs for greater clarity: "Retention: 1st to 2nd Year" and "Graduation Rates: '4 Year' and '6 or More Years'",
 - The former "Internship Program" table has been renamed "Credit Internship Program" for greater clarity,
 - "Electronic" and "Microform" subscriptions have been added as lines in the "Profile of the College Library" table,
 - A "Class size = 1" line has been added to the "Average Class Size" table,
 - "Top Ten Cross-application Colleges" has been added as a new table, this showing those institutions with which we share the most applications for the freshman class,
 - "The Sports Section" has been expanded to three pages to include a new "Distinguished Athletes" table,
 - The "Fixed Cost per Student" table has been renamed "Annual Fixed Charges per Student"
 - A section for cross-disciplinary study area coordinators has been added to the "Division Heads, Department Chairs, and the Faculty Senate" table, and the name of the table has been appropriately revised,
- and*
- The "Statement of Current Funds Revenues, Expenditures, and Other Changes" table has been revised for greater clarity and to show year-to-year differences.

¹ GPA based on high school academic courses only, as determined by the SMCM Admissions Office.

² GPA based on all high school courses.

³ Percentile rank: The percentage of all (nation-wide) SAT scores that were at or below the average SAT score reported for entering freshmen at SMCM. For example, in 1996, 86% of all college-bound seniors scored at or below the SMCM average of 631 attained on the verbal portion of the SAT.

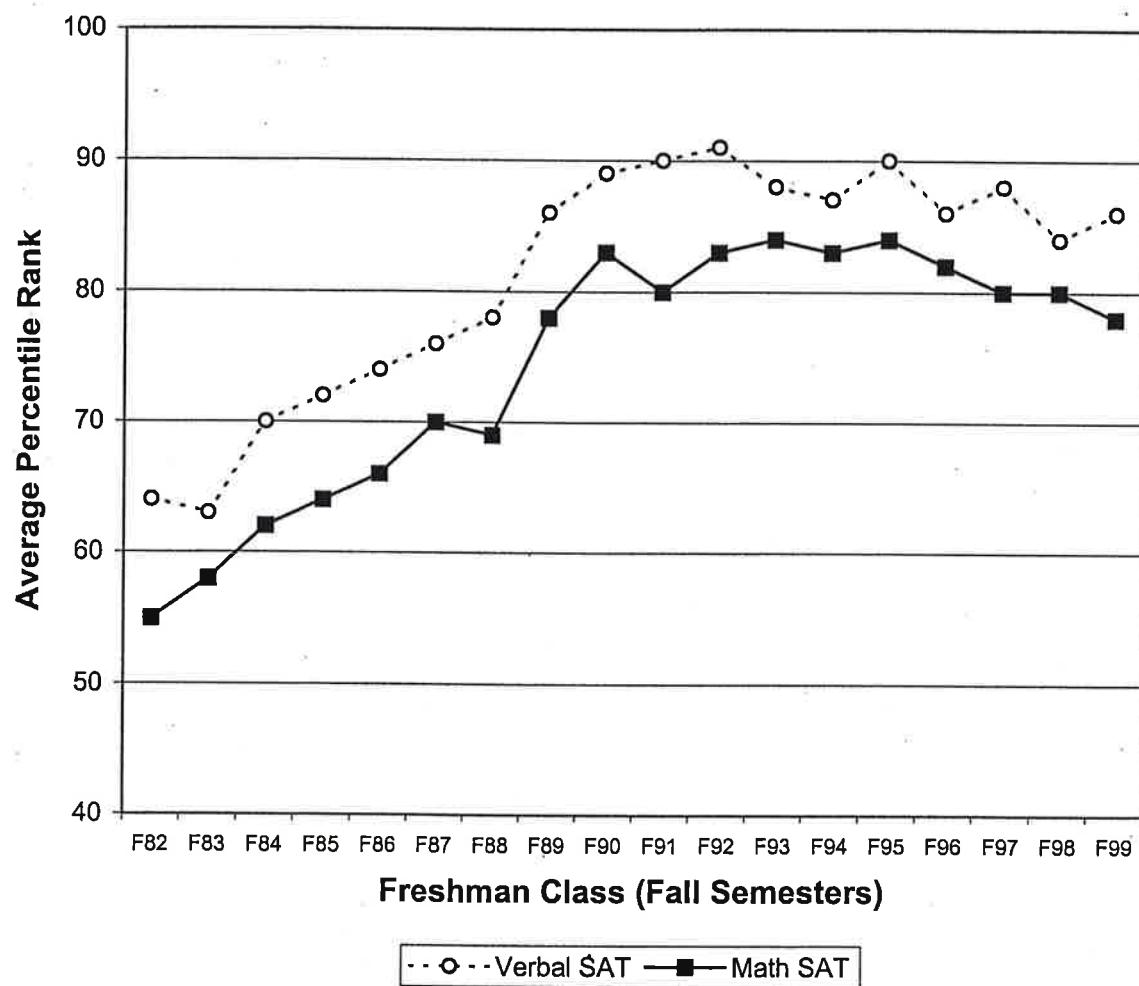

⁴ Re-centered SAT scores, as reported by The College Board, are presented beginning in 1996.

¹ Percentages by racial classification are based on "Race Known" of on-campus full-time students.

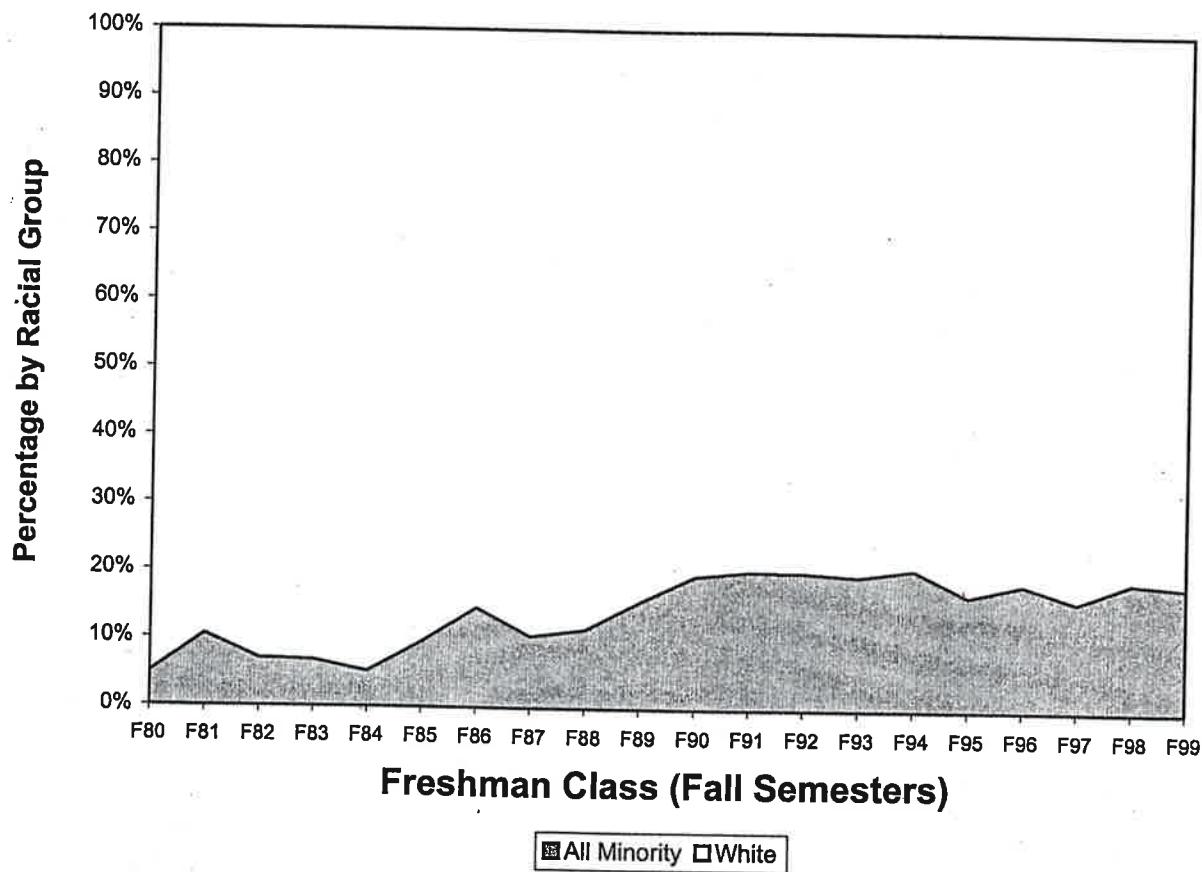

² Some government reports exclude non-resident aliens (those students with, typically, an F1 visa) from racial counts. The above figures portray the racial diversity of all full-time students, regardless of visa type. The numbers of non-resident aliens included within each racial category by year are indicated in the "Af+As+H+W" column. This column header refers to the numbers of non-resident aliens included within the Afr-Am, Asian, Hispanic, and White counts, respectively. For example, the "(6+4+1+3=14)" entry in the "Af+As+H+W" column for Fall '97 indicates that 6 of the 142 Afr-Am students in Fall '97 were non-resident aliens, 4 of the 69 Asian students were non-resident aliens, etc.

¹ Full-time faculty are listed by discipline in Appendix A.

² Includes one person on sabbatical.

³ Includes two people on sabbatical.

⁴ Includes one full-time administrator.

⁵ Includes faculty replacing regular faculty on leave.

⁶ Split lines are counted as one full-time faculty position.

⁷ To avoid double counting, replacement faculty for regular faculty on sabbatical are not counted.

⁸ Faculty on leave-of-absence are not included.

⁹ Some part-time faculty teach courses in more than one discipline. Such faculty are included in the "PT" total for each discipline and division but are only counted once in the overall "PT" total.

¹⁰ One of the 106 state-authorized faculty lines was vacant in Fall '95.

¹¹ All 108 of the state-authorized faculty lines were filled in Fall '96.

¹² One of the 111 state-authorized faculty lines was vacant in Fall '97.

¹Calculations based on full-time faculty holding a state-authorized line. This includes full-time faculty who hold a temporary state line and are, typically, designated "Visitor." To avoid double counting of faculty lines, the following counting rules are observed: 1) count regular faculty on sabbatical but not sabbatical replacement faculty, 2) count leave-of-absence replacement faculty but not regular faculty on leave-of-absence, and 3) count only one member of split-line pairs. Appendix B provides a list of all faculty and their teaching status.

²"N" and "%" apply only to "Rank," "Highest Degree," and "Sex" categories.

³"Split Lines" are counted as one faculty member; in Fall '99 two assistant professors in philosophy occupy one line.

⁴Terminal degrees include all doctorates, the MM, and the MFA.

⁵a) Extra pay for administrative duties (e.g., division and department heads) is not included in salary calculations. b) "Special case" salaries (viz., salaries of those on special sabbatical, sabbatical replacement, leave-of-absence, split-line arrangements, and the Distinguished Professor) have been excluded from all salary calculations. c) Average salaries only reported for cells containing four or more faculty.

³ Decreases in average salary may arise from several sources: the hiring of "visiting" faculty within an academic rank, promotion of some of the more highly paid faculty to the next academic rank, and the attrition of highly paid faculty.

**Excerpts from the
MISSION STATEMENT*
of
*St. Mary's College of Maryland***

Institutional Identity

Character and purpose: A public honors college, St. Mary's College of Maryland seeks to provide an excellent undergraduate liberal arts education and small-college experience of the sort more commonly associated with outstanding private institutions: a faculty of gifted teachers and distinguished scholars, a talented and diverse student body, high academic standards, a challenging curriculum rooted in the traditional liberal arts, small classes, many opportunities for intellectual enrichment, and a spirit of community.

This focus gives St. Mary's a distinctive identity within Maryland's higher education system and thus offers the people of Maryland an important alternative. Small, intellectually rigorous liberal arts colleges have always made vital contributions to American society, producing a disproportionate number of the nation's leaders in the professions, in science, in public affairs, and in business. These colleges stress education rather than training, the development of mental skills and abilities, and intellectual breadth in the arts, humanities, natural, and social sciences. By fostering close faculty-student interaction—a function of their small size—such colleges steep their students in the process of intellectual, social, and personal exploration. St. Mary's is the most residential of the state's colleges and universities, a fact that enhances its success in forging a close-knit academic community.

As a public college, St. Mary's offers families throughout Maryland an affordable alternative to much more expensive private institutions offering a similar education. Moreover, the College sees its distinctive mission among liberal arts colleges as the provision of the opportunity for students from a broad socioeconomic, ethnic, and racial spectrum to acquire the kind of education that will enable them to assume leadership roles in their chosen fields and in civic matters. The St. Mary's alternative makes possible a diverse, heterogeneous student body that can foster the most fruitful kinds of intellectual and personal interchanges and the most exciting of educational communities.

Given its designation as an honors college, St. Mary's carries the obligation to offer its students an educational experience that goes beyond traditional course-based study and, rather, fosters independent learning and the forging of links between curricular, co-curricular, and extra-curricular interests and activities. Because it is a public honors college, St. Mary's hopes to instill in its students a sense of civic responsibility, emphasizing notions of community and encouraging cooperative or collaborative endeavors in both academic and extra-curricular life.

Functional emphasis: St. Mary's stresses teaching and seeks above all to foster excellence in instruction. In recruiting a new faculty member, the College has as its foremost concern the candidate's ability to provide excellent instruction. As faculty members are considered for promotion and continued appointment, the quality of teaching, as identified in student evaluations and peer review, is a critical element in the evaluation. Although research is a lesser priority, the College believes that excellent teaching is enriched by the knowledge and skills developed in research and other professional activities. Encouraged by the College, an increasing number of faculty have been successful in involving students in collaborative research endeavors that enable these students to become active learners. The College strives to be a good citizen by providing educational and cultural resources for the people of Southern

Maryland and by encouraging faculty members to be active in the wider community. Public concerts and lectures, as well as the involvement of individual faculty members in community activities, are reflective of the institution's role in the region.

Degree levels: The College is devoted exclusively to a liberal arts education at the undergraduate level, leading to the degree of Bachelor of Arts.

Carnegie classification: St. Mary's is classified as a Baccalaureate (Liberal Arts) College I.

Constituencies Served

Student body: Most of the St. Mary's College student population consists of traditionally-aged, resident students.

Geographic sources of students: Approximately 87% of the full-time students are residents of Maryland. St. Mary's student body is composed primarily of students from the metropolitan communities surrounding Baltimore and Washington. The three Southern Maryland counties are the second largest providers of students.

Admissions standards: St. Mary's is a highly selective college. To be admitted, students generally must demonstrate superior achievements in a program of study emphasizing academic, college-preparatory classes. Although the College does not use a rigid formula, the students targeted for admission to St. Mary's tend to rank in the top quintile of their graduating classes.

....

Special relationships with K-12 schools: The spirit of community and intellectual enrichment fostered by the liberal arts environment of St. Mary's extends beyond the College campus as St. Mary's students, faculty, and staff work in and with local elementary and secondary schools. Members of the campus community tutor middle and high school students as part of the Bright Futures and Maryland's Tomorrow programs. The campus-based For Goodness's Sake program sponsors projects that link St. Mary's students with students in area elementary, middle, and high schools.

Partnerships with government, business, and industry: With a liberal arts curriculum directed toward a non-vocational, broad education, St. Mary's seeks to prepare its students for leadership in a changing world. Implicit in this goal is an understanding that the liberal arts do not exist in the stereotypical Ivory Tower. The nexus between academe and the contemporary social environment can be seen in the roles St. Mary's faculty and staff play in local school boards, governmental commissions, and advisory groups. Businesses and governmental units throughout the state welcome the St. Mary's students placed in their offices through the College's credit-bearing internship program.

Instructional Program Emphasis

The St. Mary's curriculum is designed to prepare students for future success in work and in life through the development of their abilities in communication, critical analysis, and creative thinking. The College curriculum stresses intellectual breadth through rigorous requirements in the arts, humanities, natural sciences, and social sciences. At St. Mary's all students must complete an unusually large set of common requirements.

In addition, St. Mary's requires students to gain depth in a particular field by choosing an academic major. At St. Mary's, major programs are focused on the traditional liberal arts disciplines and a few

interdisciplinary programs. The College also offers students the opportunity to develop their own majors, under close faculty supervision, via the "Independent Student-designed Major."

• • •

[The operating goals of the College] ...are directed toward enhancing the distinctive mission of St. Mary's—the provision of a rigorous, intellectually stimulating, and ethically challenging college experience that provides a solid foundation of essential knowledge and skills, challenges students to set goals and take initiatives, and engenders a sense of civic responsibility. Few liberal arts colleges in the United States still provide upward mobility in leadership roles for all sectors of society, and none in Maryland focuses so firmly on educating, within the State, future professional and civic leaders.
