Introduction

The current edition of the COPLAC Data Profile has been compiled for distribution at the June 2017 COPLAC meeting in an effort to provide more current data for information based decision making.

There are fifteen sections to this report which covers many of the common aspects of comparison utilized by institutions. Additionally, there is a data dictionary that notes the source and timeframe of these data. Whenever possible, the intent has been to use routinely collected or reported data for consistency and efficiency.

This report was made possible through the hard work and patience of the Institutional Researchers at the COPLAC institutions. This is the fourth year of the revised data collection and the processes and metrics will be reviewed for continual improvement of the Data Profile.
